

FISHTOWN HOME RENOVATION

PHILADELPHIA, PA

PROJECT DETAILS

TYPE
Home Renovation

LOCATION
Philadelphia, PA

COMPLETION DATE
July 2024

ARCHITECT
CGT Construction

DESCRIPTION

Serving as the general contractor, CGT Construction executed the comprehensive renovation of this Fishtown residence, transforming a traditional urban space into an elevated, high-end masterpiece. Led by a civil engineer, the project required a sophisticated balance of modern architectural design and technical rigor, from the structural reconfiguration of legacy living spaces to the precision installation of a gourmet kitchen and luxury bathrooms. By blending sleek fixtures with intentional textures and custom-layered lighting, we redefined the home as a private sanctuary that emphasizes both structural durability and timeless elegance. Driven by a commitment to customer satisfaction and engineering excellence, we delivered a high-value, turn-key transformation exactly as promised.
