

VILLANOVA BATHROOM REMODEL

VILLANOVA, PA

PROJECT DETAILS

TYPE
Bathroom Remodel

LOCATION
Villanova, PA

COMPLETION DATE
March 2026

ARCHITECT
CGT Construction

DESCRIPTION

Serving as the general contractor, CGT Construction executed the full construction scope for this Villanova bathroom remodeling, transforming a traditional space into a masterfully updated, high-end retreat. Led by a civil engineer, the project required a sophisticated balance of elevated design and technical rigor, from the initial demolition of legacy elements to the installation of new, high-performance systems and custom waterproofing. By layering sleek fixtures with intentional textures, artisanal stone, and custom lighting, we redefined the space as a private sanctuary that emphasizes both structural durability and timeless elegance. Driven by a commitment to engineering excellence, we delivered a luxurious, turn-key transformation exactly as promised.
