

## LOGAN SQUARE BATHROOM REMODEL

PHILADELPHIA, PA

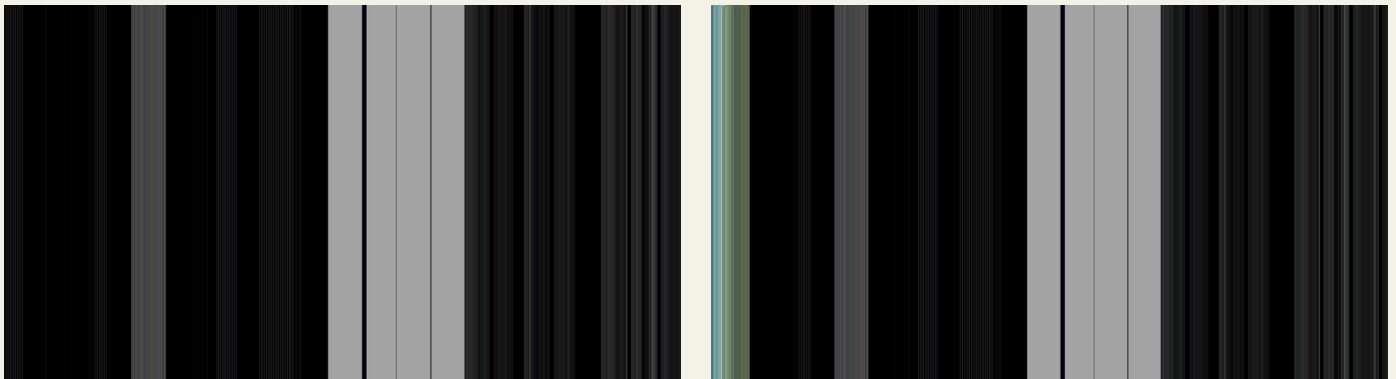

### PROJECT DETAILS

TYPE  
Bathroom Remodel

LOCATION  
Philadelphia, PA

COMPLETION DATE  
April 2025

ARCHITECT  
Chris Reed

## DESCRIPTION

Serving as the general contractor, CGT Construction executed the full construction scope for this Logan Square bathroom remodeling, transforming a traditional layout into a masterfully updated, high-end retreat. The project required a sophisticated balance of elevated design and technical precision, from the initial demolition of legacy elements to the installation of new, high-performance systems. By layering sleek fixtures with intentional textures and custom lighting, we redefined the space as a private sanctuary that emphasizes both structural durability and timeless elegance.
